Subject: RE: Non-compliant public GPO content items for j.krochmal_EXT as of 2019-12-6

Hi Folks,

The content items listed below are associated with the South 4 Group Fire Response story map for Region 6.

Eric, could you please review and reply-all with a simple "I Agree" indicating acceptance of checklist certifications listed in the e-mail below.

Please let me know if there are any questions.

Best,

Josh Krochmal

Dear Joshua Krochmal,

Your EPA GeoPlatform Online (GPO) content items listed below are currently shared with the general public and have not completed a quality review and a GeoPlatform Admin approval. If the review is not completed by the "Review Deadline" date, the items will automatically revert to non-public status and will no longer be accessible to the public. A guide to the public review process is [available here](#), but as a member of the Emergency Response community, you have the option to complete this process via email by following the steps below:

1. Review the items below to ensure each item should remain public and contains compliant entries for title, thumbnail, description, and tags. Please indicate which response the items correspond to, so they can be grouped by response.
2. Reply to this email and cc the individuals identified in your Regional ER Geoplatform Content procedure. **The EPA person identified in your procedure must reply-all with a simple "I Agree" indicating acceptance of checklist certifications listed below.**
3. The National Geospatial Support Team (geoservices@epa.gov) will complete the dashboard checklist on your behalf.

Many users have multiple accounts. These items are owned by your **j.krochmal_EXT** account so please be sure to use this account when logging in to manage these items.

Checklist Certifications:

1. I certify that the content does not contain any sensitive data or data that is otherwise inappropriate for sharing with the public. As a reminder, sensitive data is: “any information, the loss, misuse, or unauthorized access to or modification of which could adversely affect the national interest or the conduct of federal programs, or the privacy to which individuals are entitled under section 552a of title 5, United States Code (the Privacy Act), but which has not been specifically authorized under criteria established by an Executive Order or an Act of Congress to be kept in the interest of national defense or foreign.”
2. I certify that this item has been through the appropriate product review process as outlined by my organization. General information about product review is available here: www.epa.gov/product-review
3. I certify that metadata on the item details page is complete and consistent with the GeoPlatform metadata best practices guide. Information or links to where the data depicted in the map can be found are included in the metadata. [EPA Style Guide for Documenting GeoPlatform Online Content Items](#).
4. I certify that the item is consistent with established best practices for look and feel. [Using a mapmaking checklist for map design](#)
5. I certify that the item meets all appropriate EPA Privacy Act policy requirements. Information is available here: www.epa.gov/privacy
6. I agree that once the item has been made public any subsequent edits to the content item will be consistent with the guidance in this checklist.
